PROCERA[®] ZIRCONIA

Bridges and Crowns

PRACTICALITY

STRENGTH

BEAUTY

The Procera Zirconia System is the culmination of ten years of Nobel Biocare experience. The Procera Zirconia System is engineered to maximize esthetics with strong, translucent, all-ceramic teeth. A natural appearance is achieved through exceptional shade matching, color balance with subtle contrast.

- Available for both crowns and bridges
- Excellent esthetics for anterior teeth
- Recommended for thin tissue areas
- Metal cannot show through
- High strength
- Translucent
- Biocompatible
