## RESEARCH

### Nobel Biocare studies (Ongoing)

- Retrospective Analysis of Zygomatic Implants 1999-
- One vs. two implant supported molar restorations
- 3 mm diameter implants
- Straight tapered abutments
- Clinical evaluation of HTR
- Stress distribution via conversion prosthesis
- Retrospective Analysis of Angulated abutments
- Immediate implant placement
- Immediate loading of implants
- Implants and parafunctional habits
- Product Evaluator for DEN-TAL-EZ INC.
- Biomaterials group: ongoing retrieval studies
- Patient Survey of Fixed v. Removable Protheses (1996-)
- Multicenter Prospective Study and Clinical Evaluation of Narrow & Wide Platform Implants (1998-9)
- Evaluation of tensile-shear stress of permanent crown and bridge cements (1974)
- Clinical evaluation of vitreous carbon implants (1974-78)
- Clinical evaluation of porcelain fused to metal tissue integrated prosthesis on Brånemark implants (1984-)
- The accuracy of full arch ceramo-metal fixed bridgework for screw attachment to osseointegrated implants (1987-)
- Osseointegrated Implants in Elderly Patients: A Retrospective Analysis of Over 200 Patients (1997-)
- Analysis of Interdental Space Requirements in Two Implant Molar Restorations (1996-)
- A multicenter retrospective evaluation of osseointegrated implants in the treatment of partial edentulism (1987)
- Porcelain used as veneering material for osseointegrated implants (1988-)
- Plastic abutment scalars: conceptual development and evaluation of prototypes and production instruments (1988-)
- Torque driver: manual and electric conceptual development and evaluation of production prototypes (1991-)
- Straight tapered abutments for osseointegrated implants (1989-)
- Three millimeter diameter implants(1990-)
- Vicryl and Gortex as barrier materials for guided tissue regeneration around titanium implants (1990-)
- Veterans Administration/American Academy of Prosthodontists implant reporting system study (1990-)
- Periotest evaluation of bone after implant placement (1991-1996)
- T-Scan calibrating distribution of occlusal forces on implant prostheses (1991-1993)
- Restore Implant Study (1997-99)
- Friatec Implant Study (1997-99)
- Trubyte Replacement Denture Program test market project, Dentsply International (1997)
- Force Distribution of All Acrylic v. Metal Reinforced Implant Prostheses. In Vitro Study (1998-Present)
- Force Distribution to Implants With Various Metal Framework Designs. In Vitro Study (1998-Present)
- Clinical consultant for impression systems for Dentsply International (1998-Present)
- Retrospective Analysis of Pterygomaxillary Implants in Edentulous Maxilla (1997-Present)
- Effects of Diabetes on Osseointegration (1999-2000)
- Mandibular Flexure Clinical Evaluation (1999-2000)
- BriteSmile Center (1999-Present)
- Immediate loading of Brånemark implants (1998-present)
- T-129, A clinical evaluation of the NobelGuide™ Zygoma TiUnite™ implant and concept in immediate function (2008-present)

**Current Research Projects**

- Self-Esteem Research – Psychological Impact of Dental Care
- Osteonecrosis, Mandibular ONJ Secondary to Bisphosphonate Therapy, A Patient Report – submitted for publication
- Mandibular posterior bone growth after 10 year implant placement – submitted for publication - IJOMI
- Ectodermal Dyplasia 10 year follow up
- CBCT Analysis – submitted for publication
